Name of Responsible Committee/Individual:	LGB & Board of Trustees
Implementation Date:	May 2017
Review Date:	May 2020
Target Audience:	All Staff, Pupils, Students and Parents/Carers
Related Documents/References	

## Introduction

Part 1 of the Health Act 2006 makes virtually all (substantially) enclosed public and work places, including vehicles, smoke-free. The law came into force on 1 July 2007.

Second-hand smoke (passive smoking) – breathing other people’s tobacco smoke – has now been shown to cause lung cancer and heart disease in non-smokers, as well as many other illnesses and minor conditions.

The Wolds Learning Partnership (WLP) is committed to promoting the good health of its employees and the provision of a safe working environment. The WLP has a duty, under health and safety legislation, to ensure the health, safety and welfare of all employees, including the working environment ‘so far as is reasonable practicable’ and is committed to fulfilling this duty by providing a smoke-free environment for all staff.

In recognition of the above, the WLP implements a policy on providing a smoke-free environment, the details of which are set out below.

## The Objectives

The specific objectives of the policy are as follows:

- To contribute to a healthy and safe environment for the WLP’s students, staff and visitors.
- To ensure that all staff, pupils, students and visitors to WLP’s premises benefit from a smoke-free environment.  
To protect staff and students from the hazards of second-hand smoke inhalation whilst at the school
- To heighten staff awareness of the health risks associated with smoking.
- To provide opportunities, assistance and support to those staff who wish to give up or cut down smoking.

## Policy Provisions

- Smoking is not allowed in WLP premises or vehicles, for avoidance of doubt, smoking also includes the ‘smoking’ of electronic cigarettes or ‘e-cigs’.
- Smoking in private vehicles during work time is not encouraged so that the driver has full control of the car. If there are any passengers in the car that do not smoke then there must be no smoking. If there are any pupils/students in the vehicle then smoking is not allowed.
- Smoking is not permitted in any part of the WLP’s premises and grounds, including car parks.
- Smoking is not allowed whilst on duty. Therefore, staff should only be leaving site to smoke during their formal breaks.
- In order to set a good example and lead the way in promoting healthy living initiatives, the WLP expect that before smoking, any WLP identity wear should be removed.
- The WLP would also expect that staff will consider the appearance of the school when leaving the premises to smoke and avoid congregating outside entrances and driveways.
- The policy applies to staff, governors, visitors and contractors and pupils/students regardless of their status or business with the WLP.
- All visitors, contractors and deliverers are required to abide by the No Smoking Policy. Staff members are expected to inform visitors and contractors of the policy. However, they are not expected to enter into any confrontation that may put their personal safety at risk. This will apply during both term and non-term time.
- When attending meetings or other events at venues where smoking is permitted, staff are expected not to smoke, both because they are representing the WLP and therefore its strategy on tackling smoking, and because it is important not to expose others to second-hand smoke.
- When staff are accompanying a visit, trip or residential outing then staff should never smoke in front of pupils/students. If a member of staff needs to smoke then they should arrange to take a break when the pupils/students can be fully supervised by other colleagues and ensure they are out of view of

- pupils/students and in an appropriately designated smoking area.
- This policy is intended to benefit all staff and visitors and all staff are responsible for its continued implementation.
  - Leaders must play their part in promoting the policy. If the manager identifies that an employee genuinely needs assistance in adhering to the policy they can draw their attention to the available support and assistance outlined in the next section of the policy.

### **Support and Assistance for Smokers**

- The WLP is committed to helping smokers comply with the policy and the relevant Occupational Health provider will offer a programme of support, in partnership with the NHS, for employees who would like help to stop smoking. For those who do not wish to stop smoking, support will also be offered to help them manage not smoking during working hours.
- Further advice and support on stopping smoking can be obtained from the NHS Smoking Helpline on 0800 1690169 or [www.givingupsmoking.co.uk](http://www.givingupsmoking.co.uk)

### **Scope**

- The policy applies to all employees of the WLP.
- The policy applies to pupils, students, visitors, contractors regardless of their status or business with the WLP.
- Smoking is not allowed in any part of the WLP's premises and grounds, including offices, corridors, toilets and car parks.

### **Enforcement**

Breaches of this policy may be considered as misconduct under the disciplinary procedure.

### **Monitoring**

- In order to ensure fair and effective management of this policy, arrangements have been put in place to ensure the process is monitored.
- The policy will be reviewed in 24 months to ensure that it still meets with the requirements of legislation.
